

Member 1: Core Architecture & Authentication

Responsible for the database foundation, core routing, session management, and login/registration flows.

- **Backend:**
 - schema.sql (Database Design)
 - api/index.php (Main Router)
 - api/app/core/ (App.php, Controller.php, Model.php)
 - api/app/config/Database.php
 - api/app/controllers/AuthController.php
 - api/app/helpers/Session.php
- **Frontend:**
 - frontend/src/main.jsx
 - frontend/src/App.jsx (Global Context & API Fetch Wrapper)
 - frontend/src/pages/Login.jsx

Member 2: Patient Portal & Landing Page

Responsible for the patient model, registering patients, the patient dashboard interface, and the public home page.

- **Backend:**
 - api/app/models/User.php
 - api/app/models/Patient.php
 - api/app/controllers/PatientController.php
- **Frontend:**
 - frontend/src/pages/PatientDashboard.jsx
 - frontend/src/pages/Home.jsx

Member 3: Appointment Booking Engine

Responsible for the core appointment logic—booking, retrieving, and cancelling appointments for patients.

- **Backend:**
 - api/app/models/Appointment.php
 - api/app/controllers/AppointmentController.php
- **Frontend:**
 - frontend/src/pages/BookAppointment.jsx

Member 4: Doctor Interface & Directory

Responsible for the doctor's daily dashboard (viewing schedules) and the public-facing directory of doctors.

- **Backend:**
 - api/app/models/Doctor.php
 - api/app/controllers/DoctorController.php
- **Frontend:**
 - frontend/src/pages/DoctorDashboard.jsx
 - frontend/src/pages/DoctorDirectory.jsx

Member 5: Admin Dashboard & Appointment Oversight

Responsible for the admin statistical overviews and the admin-level control panel for managing all hospital appointments.

- **Backend:**
 - api/app/models/Admin.php
 - api/app/controllers/AdminController.php
- **Frontend:**
 - frontend/src/pages/AdminDashboard.jsx
 - frontend/src/pages/AdminAppointments.jsx

Member 6: Admin Management (Staff & Departments)

Responsible for the CRUD (Create, Read, Update, Delete) interfaces where administrators manage hospital departments and doctors.

- **Backend:**

- api/app/controllers/DepartmentController.php (and associated Department model logic)
- **Frontend:**
 - frontend/src/pages/AdminDoctors.jsx
 - frontend/src/pages/AdminDepartments.jsx

Member 7: Utilities, Contact Form & Global UI

Responsible for global styling, strict validation logic, standardized API responses, and the public contact system.

- **Backend:**
 - api/app/helpers/Validator.php
 - api/app/helpers/Response.php
 - api/app/models/Contact.php
 - api/app/controllers/ContactController.php
- **Frontend:**
 - frontend/src/index.css & frontend/src/App.css (Global Design System)
 - frontend/src/pages/Contact.jsx
